News Release

NEW JOINT BUSINESSES PLAN GRAND OPENING CEREMONY

WEST CARROLLTON, Ohio – A ribbon cutting ceremony to recognize the opening of two joint businesses will be held at **12:30 p.m. on Saturday, May 31**, at 338 Gargrave Road in West Carrollton.

Frank Massie, owner of MFGFIX Solutions, and his wife Kelly, owner of Custom Signs and Routing, will celebrate a joint grand opening during the weekend.

The couple decided to relocate to the Gargrave Road location because their home-based businesses were running out of space. “We were born and raised in West Carrollton and this space suited our needs,” Frank Massie said. The company also employs two part-time employees.

Frank Massie describes MFGFIX Solutions as a full service machine shop that offers prototype design-and-build services. The company offers quick turnaround machining as well as turn key systems for the industrial, aerospace and industrial fields, he said. For more information, see www.MFGFIX.com.

Custom Signs and Routing produces two- and three-dimensional residential and commercial signs. “We do any custom-designed Computer Numeric Control routing for signs, plaques, doors, panels and more,” Kelly Massie said. “We can use various types of materials to produce exactly what you want in a finished or unfinished surface.”

For more information, call **Frank or Kelly Massie** at (937) 247-5900.
