

CITY NEWS

A Note from the Mayor

I'd like to begin by thanking the residents of the City of West Carrollton for entrusting me with the role of Mayor; it is a profound honor. As I embark on this new chapter, I am dedicated to working with our esteemed City Council to ensure the growth and prosperity of our city.

The City of West Carrollton started the year with a new City Manager, Amber Holloway. Her experience and fresh approach will undoubtedly enhance our ability to deliver exceptional services in 2024 and beyond. On behalf of myself and the City Council, we welcome Ms. Holloway to our city and look forward to her guidance on our many exciting projects.

Among our top priorities are the River District Development and the construction of the Whitewater Park. The River District will serve to benefit our residents and will position West Carrollton as a regional destination. Work is set to begin on important roadway infrastructure improvements at the intersection of Dixie Drive and Manchester Road this summer to lay the groundwork for the River District Development. Additionally, we will address essential infrastructure projects throughout town such as street paving, and sidewalk repair, and embark on the design engineering to update the City's wastewater treatment plant.

There will also be numerous opportunities for our residents to come together throughout the summer. Our summer events schedule is detailed on pages 6-7 in this newsletter. We hope you will be able to join us for music, festivities, and fun during our summer concert series, which is sure to offer fun for all ages.

2024 will be a busy and productive year, and I'm grateful to our residents for their trust and confidence in my leadership.

Kind regards,
Mayor Rick Barnhart

Summer Events

April showers bring May flowers, but they also bring the start to summer events in West Carrollton!

Another great summer is right around the corner and back by popular demand are the Summer Concert series and First Thursdays! Of course, some wonderful vendors and food trucks will be back for First Thursdays on 35 N. Elm St., downtown in Carrollton Centre, and we are seeing repeat performances from local bands like Spungeworthy, Velvet Crush, and Stranger!

Visit the new and improved community calendar on the West Carrollton website for the most up-to-date calendar of events and check The City of West Carrollton on social media for any last-minute announcements on events.

We look forward to seeing you, your family, and your friends this summer in West Carrollton!

IN YOUR CITY

Ohio Building Code Revised in 2024

Building Codes

Ohio building code was revised March 1, 2024. There are significant changes to the commercial building code and minor changes to the residential code. Also, there are significant changes to the electrical code that apply to both commercial and residential projects.

Scan the QR code for more information!

This will not affect any projects under construction or applications in review before this date. If you are planning a new project, keep in mind that any projects submitted after March 1, 2024, will need to follow the new codes. Contractors and other professionals should be aware of these changes. If you have any questions or concerns, please contact the Planning and Community Development Department at (937) 859-5783.

For full details scan the QR Code or visit our website www.westcarrollton.org.

Emergency Repair Funding for Homeowners

County Corp offers emergency repair funding for homeowners within Montgomery County. To be eligible for funding, households must have incomes at or below 80% AMI.

Eligible emergency repairs include accessibility ramps, roofing, plumbing, HVAC, etc. For more information, visit County Corp's website via the QR Code or call Erica Jordan at 937-531-7020. Funds are available on a first-come, first-served basis.

Scan the QR code for more information!

Fire Hydrant Testing

On Monday, April 1st, no foolin', the Fire Department will begin its yearly test of fire hydrants in the city. Testing will take place Monday through Friday between 9 am – 4 pm. Every year, the Fire Department marks the top of each hydrant with a different paint color to distinguish that the hydrant has been tested. This year's color will be **GREEN**.

Hydrants are flushed to make sure adequate water flow and pressure are available in the event of a fire. During testing, residents may notice discolored water coming from their faucets or washing machines, and we suggest running the cold water until it runs clear. Wait to do laundry until the water is clear to help avoid potential fabric stains.

WEST
CARROLLTON

FLOOD SAFETY TIPS

Keep all brush and debris out of streams and ditches; this helps flood water to flow freely.

Store valuables and insurance papers in a waterproof container.

Call (937) 859-5783 to find out if your property is in a Flood Risk Zone.

Get a building permit before building in a floodplain.

If the road is underwater, turn around, don't drown.

Ask your insurance agent if you are covered for flood damage.

PREPARING FOR THE UPCOMING ECLIPSE

On Monday, April 8, 2024, people within Montgomery County as well as the surrounding Miami Valley will experience a total solar eclipse. Totality (darkness) will last 2 minutes and 42 seconds. The partial eclipse will begin at 1:53 pm, with totality arriving at 3:09 pm. It's expected that this event will bring large numbers of individuals into our area. A total solar eclipse is a rare and spectacular event. The last total solar eclipse visible in Ohio was in 1806. The next total solar eclipse in Ohio will be in the year 2099.

Public Health
Prevent. Promote. Protect.
Dayton & Montgomery County

WHAT IS THE CONCERN?

- Large crowds are expected to show up for a once-in-a-lifetime event.
- A prior eclipse in the USA (2017) had more than 5 million people view the event.
- Expect traffic jams that could last up to 13 hours after the eclipse.
- Rural roads may see increased traffic with drivers who are unfamiliar with local road conditions and may travel at a high rate of speed. Be mindful of children and pets.
- There is a possibility for cell phone & Wi-Fi to be significantly impacted based on the large number of viewers.

EXPECTATIONS/PLANNING PREPARATION

Limit travel on the day of the event if possible.

Travel with water, medications, snacks, and other needed supplies should you encounter an extended delay on the roadways.

Begin the day with a fully charged mobile phone; carry extra power devices.

Fill up on gas at least the day before the eclipse.

- If viewing the eclipse, use eclipse glasses that meet ISO 12312- 2 standards.
- Expect employees to have long delays driving to and from work, day of the event.
- Maintain a small amount of cash on your person, in case credit card services go down.
- Check with your kids' school on their plans for the day (early off, delayed pick-up).

WILSON POOL

Regular Pool Hours

Monday-Friday: 12:00 p.m. - 8:00 p.m.

(Sunday Season Pass Holders: Noon-1:00 p.m. admission)

Saturday: 12:00 p.m. - 7:00 p.m.

(Season Pass Holders - 11:00 a.m. admission)

Sunday: 1:00 p.m. - 8:00 p.m.

(Season Pass Holders - 11:00 a.m. admission)

Holidays: 11:00 a.m. - 7:00 p.m.

Wilson Pool Phone Number:

(937) 859-5334 (only monitored during open pool hours)

Pre-Season Pool Passes

Youth (4-17) Adult (18-55) Senior (55+)

Pre-season rates are available for purchase online at www.westcarrollton.org or at the Civic Center March 4 - May 24, 9:00 a.m. - 2:00 p.m. Beginning May 25, regular season pool passes can be purchased at the pool during pool hours.

	Resident	Miamisburg Resident	Non-Resident
Youth/Senior	\$55	\$65	\$90
Adult	\$67	\$75	\$102
Family	\$151	\$170	\$222
Extra Person	\$26	\$36	\$36
Babysitter Fee	\$26	\$36	\$36

*Family is defined as a maximum of 4 persons (in any combination of adults and children) permanently living in the same household. Additional adults or children permanently living in the same household are subject to "extra person" pricing.

Resident rates apply to anyone working within the City of West Carrollton and paying West Carrollton City Taxes, or anyone living within the West Carrollton School District.

If you have a current West Carrollton YMCA membership, you will receive a 15% discount on Pool Passes **only**. YMCA discount **DOES NOT** apply to daily admission rates, or the 10-Day Admission Pass.

New identification passes will be issued for ALL Wilson Pool Pass recipients.

Summer Swimming Lessons

American Red Cross swimming lessons are available for youth ages infant/toddler and up. Registration for all swim lesson sessions must be completed at the pool during pool hours.

Residents: \$30

Non-Residents: \$35

Daytime Classes: Times vary based on the level determined by instructors.

Session 1: Monday-Friday, June 3 - June 14

Session 2: Monday-Friday, June 24 - July 3

No Class July 4th

Session 3: Monday-Friday, July 15- July 26

Evening Classes: Begin at 8 p.m.

Session 1: Monday & Wednesday, June 3 - July 3

Session 2: Monday-Friday, July 15-26

For Session 1 only: registration must be completed May 28-29 (9 a.m. - 12 p.m.) at the pool.

Sessions 2 & 3: registration can be completed during open hours at the pool.

Call the pool directly at **(937) 859-5334** for swim lesson information and to register. Pool phone is only monitored during open pool hours.

Level	Class Time	Length
Infant/Toddler	10:30 am	30 min
Preschool	10:30 am	30 min
Preschool	11:10 am	30 min
Level 1	10:30 am	30 min
Level 1	11:10 am	30 min
Level 2	9:30 am	45 min
Level 2	10:30 am	45 min
Level 3	9:30 am	45 min
Level 3	10:30 am	45 min
Level 4	9:30 am	45 min
Level 5	9:30 am	45 min
Level 6	9:30 am	45 min

IMPORTANT POOL DATES

May 25 - 27 - Open for Memorial Day weekend

May 28 - 31 - Closed

June 1 - Open for the season

June 11 - Closing at 5:00 p.m. for a swim meet

June 16 - Pops Day

June 20 - Closing at 5:00 p.m. for a swim meet

June 27 - Closing at 5:00 p.m. for a swim meet

July 2 - Closing at 5:00 p.m. for a swim meet

July 13 - Closed for the Championship

August 12-16 - Closed

August 17-18 - Weekend Hours

August 19-23 - Closed

August 24-25 - Weekend Hours

August 26-30 - Closed

August 31-September 2 - Final weekend open

September 2 - Labor Day Pool is open 11-4 p.m. Doggie Dive 5-7 p.m.

WAVES Swim Team

The WAVES Swim Team is for youth ages 5-18 who wish to learn or improve their swimming skills in four strokes. WAVES competes with other area teams in the Southern Ohio Swim League.

The season runs from the Tuesday after Memorial Day until mid-July. The below prices include a t-shirt, cap, ribbons & trophies, concession fee, and coaches' pay.

For more information email:
swimmingwaves@gmail.com.

1st Child - \$80

2nd Child - \$75

Family Maximum - \$200

WHAT'S HAPPENING?

Information & Registration:

Please visit the City's website at www.westcarrollton.org/events or scan the QR code to the right for more registration information on community events!

Summer EVENTS CALENDAR

April

9: Class on How to Safely Dispose of Unwated & Expired Medication

May

4: Bicycle Fun Day & Ice Cream Social
4: City-wide Garage Sale
18: Community Pride Day
22: The Great Paint Escape
30: Summer Concert Series - Spungeworthy

June

6: First Thursday
13: Summer Concert Series - Velvet Crush
20: Let's Go Fly a Kite

The Great Paint Escape

Adults 18 and Over

Enjoy guided painting by professional artist Dina Cain, who has over 30 years of experience as an artist. Your fee includes all materials for painting including the medium, water, beverages, appetizers, and sweet treats.

Date: Wednesday, May 22

Time: 6:00 p.m. - 8:00 p.m.

Location: West Carrollton Civic Center,
300 E. Central Ave.

Cost: \$35 per person (Registration ends May 20th)

Let's Go Fly a Kite at Wilson Park Pool

Let's build a kite together and then fly it!

This family fun activity will be held inside the Wilson Park Pool and we will have all the materials you need to make your kite.

Date: June 20th & July 18th

Time: 11:00 a.m. - 1:00 p.m.

Location: Wilson Park Pool Shelter

Cost: \$3 per person (in addition to paid admission)

Bicycle Fun Day & Ice Cream Social

KIDS 4-12 BRING YOUR BICYCLES or walk the course! Learn biking skills on the activity course and then have fun on the new-this-year skills course! FREE bicycle safety check and repair station. Thank you, Domtar, for the donation to make high-quality Kali Bicycle Helmets free for all children who participate. Our fire and police department will be there for a Touch-A-Truck, and Valor Martial Arts will have a live demonstration. Shelly's Ice Cream Treats will be in attendance, so don't forget your ice cream money!

Be sure to check out our events calendar at www.westcarrollton.org for more details!

Date: Saturday, May 4

Time: 11:00 a.m. - 1:00 p.m.

Location: Miami & Erie Canal Park, 5457 Marina Dr.

Cost: Free

SUMMER CONCERT SERIES

West Carrollton's Summer Concert Series is back for another season to rock your socks off!

Join us for our monthly Summer Concert events, located at West Carrollton Centre (right across from the fire station and beside the sand volleyball court) from 7-9 pm.

We'll be bringing fresh tunes all summer long, so grab your family, friends, and neighbors for an evening of fantastic music. Come for the music, stay for the delicious food trucks!

Check out our events calendar at www.westcarrollton.org/events for the full line-up of food trucks and all the exciting fun details we have in store for each show!

SPUNGEWORTHY,
STRANGER &
VELVET CRUSH!

First Thursdays

Join us for summer family fun! We'll have live music, activities, various vendors, and more! This is a free event; food can be purchased at any of the participating food trucks.

Interested vendors should contact Pegge Bellamy for information:

Email: pbellamy@westcarrollton.org

Phone: 937-847-4635

Date: June 6, July 11 (not July 4), August 1

Time: 5:00 p.m. – 8:00 p.m.

Location: Carrollton Centre, 35 N. Elm Street

Cost: Free

Celebrate Arbor Day

Did you know West Carrollton has been a part of the Tree City USA program for 35 years?

Come out and join us at Wilson Park (where the pool is located) on April 26th at 5:30 p.m. as we celebrate another year.

We're calling all Boy Scouts and Girl Scouts and all other children who would like to help plant a tree and celebrate National Arbor Day!

SAFELY DISPOSE OF UNWANTED & EXPIRED MEDICATION

Store medication safely, and dispose of it properly. FREE home disposal kit, FREE coffee, and donuts.

Date: Tuesday, April 9, 2024

Time: 10:00 a.m. – 11:00 a.m.

Location: West Carrollton Community Room, 300 E. Central Ave.

Cost: Free Event. Please register using the QR code.

Meet New Council Member Mike Boyle

Welcome our newest Council Member!

The City of West Carrollton announced the appointment of Michael Boyle as the newest member of City Council. In his new position, Boyle will play a vital role in shaping policies, making decisions, and representing the interests of West Carrollton residents. His diverse background and fresh perspectives will contribute to the city's continued growth and prosperity.

"I am honored and humbled to serve the residents of West Carrollton as a member of the City Council," said Boyle. "I am committed to working collaboratively with my fellow council members and city officials to address the needs of our community and to ensure that West Carrollton continues to thrive." Please join us in congratulating Michael Boyle on his appointment to the West Carrollton City Council.

From the left Council Members Amanda Zennie, Rick Dobson, Deputy Mayor Angie Fryman, Mayor Rick Barnhart, Council Members Jill Tomlin, Mike Boyle, Keith Tilton, and City Manager Amber Holloway.

Legacy Pancake House Continues Its Legacy in West Carrollton

Nancy Maybury and Mary Teegarden, a mother daughter team, own the Legacy Pancake House and have purchased Holly's Home Cooking, located at 489 E Dixie Dr. in West Carrollton. "We are very excited to reopen Legacy Pancake House in West Carrollton," said Maybury. "Our customers and staff have been waiting for this moment, and we are excited to see some old faces and meet new ones."

Mike Lucking, economic development director for the City of West Carrollton, stated, "The city is engaged with Legacy to help get them off to a fast start in the new location, but we are also reminded of the years of service and impact Holly's had on our community,"

The City of West Carrollton would like to thank Kevin and Kelly McClure of Holly's for their many years of faithfully serving the community. We hope you enjoy a well-deserved retirement.

West Carrollton City Schools – Update!

The community passed a Building Bond Issue in November 2019 to allow the construction of four new buildings. Passage of the Building Bond Issue locked in the commitment from the Ohio Facilities Construction Commission to pay for 81% of the co-funded cost of construction with the community portion being 19% of the co-funded cost.

A two-phase construction plan began immediately after the Building Bond Issue was passed.

PHASE I

- A new *Early Childhood Center* for preschool through first grade
- An *Intermediate School* for grades five and six

Both Phase I buildings opened for the first day of school of the 2022-23 school year on time and on budget!

PHASE II

Groundbreaking for Phase II construction was in October 2023 and was attended by community members, state, county, and city officials, members of the Bond Committee, school officials, and students.

- A new *Elementary School* for grades two through four (architect's rendering)
- A new *Middle School/High School campus* for grades seven through twelve (architect's rendering)

The new Elementary School will be built on the same property as the new Early Childhood Center and the Middle School/High School Campus will be built on the same property as the current High School.

West Carrollton Elementary is slated to open at the beginning of the 2025-2026 school year and West Carrollton Middle/High School Campus at the beginning of the 2026-27 school year.

Current elementary schools, the Middle School, and High School will hold Farewell Tours before the opening of new buildings. Those dates have not yet been scheduled.

Library News

Did you know Dayton Metro Library has an Early Literacy page on their website?

Scan the QR Code for their monthly reading list & activity calendar, tips, tricks, and ideas for helping your child develop those all-important literacy skills from infancy through kindergarten!

Scan the QR code for more information!

Kindergarten Club is coming in April! Wednesdays & Thursdays, April 3rd & 4th through April 24th & 25th. For the families of children who are entering kindergarten in fall 2024.

Homework Help is Here! Our West Carrollton branch is offering homework help for students in grades K-12 on Mondays and Wednesdays from 3:00 p.m. until 6:00 p.m. (Students under 8 years old must be accompanied by an adult.)

Summer Challenge: June 1st through July 31st. The Dayton Metro Library's Summer Challenge this year is themed **Adventure Begins at Your Library**. Adventure and fun await families this summer.

Library Program Highlights

- March 28th, 3:00 - 4:30 p.m.: **For Teens - Boonshoft School of Medicine Presents the Human Body.**
- April 2nd from 3:30 - 5:00 p.m.: Join us to make a **DIY Solar Eclipse Viewer** using boxes, foil, and other household items.
- May 7th from 3:00 - 5:00 p.m.: **Learn about our 3D printers** - how they work and what they can do, and find out about our introductory and advanced 3D printing classes (ages 12+).
- May 11th from 2:00 - 3:30 p.m.: **Guitarist Eric Loy** will be playing a wide range of music with his own special brand of whimsy (all ages).
- **Messy Mondays** - Family Programming: Each Monday in June and July from 2:00 - 3:00 p.m. for all ages.
- June 29th from 2:00 - 4:00 p.m.: **LEGO Mindstorms** - Programmable robotics challenge adults to use coding skills to take playtime to the next level.

Unregulated contaminants are those for which EPA has not established drinking water standards. The purpose of unregulated contaminant monitoring is to assist EPA in determining the occurrence of unregulated contaminants in drinking water and whether future regulation is warranted. In 2023 the City of West Carrollton participated in the fifth round of the Unregulated Contaminant Monitoring Rule (UCMR 5.) For a copy of the results please call the Utility Supervisor at (937) 847-6070. ***NOTE: None of the Unregulated Contaminants of the UCMR 5 were detected in the City of West Carrollton's water.**

The City of West Carrollton 2023 Water Quality Report

The USEPA requires all community water systems to annually provide to their customers the following water quality report. The City of West Carrollton is proud of the quality drinking water it provides. This annual water quality report shows the source of our water, lists the results of our tests, and contains much important information about water and health. The West Carrollton Water Department will notify you if there is any reason for concern about our water. We are happy to show you how we have surpassed water-quality standards.

OVERVIEW:

In 1988 a new water plant was constructed to provide a high-quality, reliable supply of water to the nearly 12,000 consumers served. In early 2005 a membrane filtration softening plant was put on line that significantly reduces the hardness level in the water. In 2023 the City of West Carrollton has an unconditioned license to operate our water system.

An Explanation of the Water-Quality Data Table:

The data presented in this report is from the most recent testing done in accordance with regulations by the West Carrollton Water Department. Terms used in the Water-Quality Table and in other parts of this are defined here.

DEFINITIONS:

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set at close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Maximum Residual Disinfectant Level (MRDL): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

WATER SOURCE:

The source of West Carrollton's Drinking Water comes exclusively from groundwater through wells drilled into the aquifer that lies beneath West Carrollton. The aquifer extends the length of the Miami Valley. Residents are encouraged to report activity or spills that could cause contamination of the underground aquifer. Ohio EPA has fully endorsed the city's well head protection program which safeguards the city's water supply for future generations.

REQUIRED ADDITIONAL HEALTH INFORMATION:

In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain contaminants in water provided by public water. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

The source of drinking water (both tap water and bottled water) includes rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- (A) Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- (B) Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- (C) Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.
- (D) Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum productions, and can also come from gas stations, urban stormwater runoff and septic systems.
- (E) Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of West Carrollton is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline at 1-800-426-4791 or at <http://www.epa.gov/safewater/lead>.

We encourage public interest in our community's decisions affecting drinking water. Regular City Council meetings occur at 6:30 p.m. on the second and fourth Tuesdays of each month at the Civic Center, 300 E. Central Ave. The public is welcome. The Utility Superintendent will be happy to answer any questions about West Carrollton water quality. Please call (937) 847-6070. For further information, see the US Environmental Protection Agency (EPA) water information at www.epa.gov/safewater.

Ohio EPA completed a study of the City of West Carrollton's source of drinking water to determine its susceptibility. According to the study, the aquifer (water rich zone) that supplies water to the City of West Carrollton has a high susceptibility to contamination. This determination is based on the following:

lack of a protective layer of clay overlying the aquifer; shallow depth (less than 15 feet below ground surface) of the aquifer; and the presence of significant potential contaminant sources in the protection area. The City of West Carrollton has developed and implemented a comprehensive wellhead protection plan to help prevent additional contamination from entering the aquifer and prevent the existing contamination from impacting the drinking water source. The protection plan contains an education component, source control strategies, a contingency and emergency response plan, and ground water monitoring strategies. More information about the source water assessment or what consumers can do to help protect the aquifer is available by calling (937) 847-6070.

The Consumer Confidence Report (CCR) reflects changes in the drinking water regulatory requirements during 2016. All water systems were required to comply with the Total Coliform Rule from 1989 to March 31, 2016, and begin compliance with a new rule, the Revised Total Coliform Rule on April 1, 2016. The new rule maintains the purpose to protect public health by ensuring the integrity of the drinking water distribution system and monitoring for the presence of total coliform bacteria, which includes E. coli bacteria. The U.S. EPA anticipates greater public health protection under the new rule, as it requires water systems that are vulnerable to microbial contamination to identify and fix problems. As a result, under the new rule there is no longer a maximum contaminant level violation for multiple coliform detections. Instead, the new rule requires water systems that exceed a specified frequency of total coliform occurrences to conduct an assessment to determine if any significant deficiencies exist. If found, these must be corrected by the Public Water System. How to read the Water Quality Data Table: EPA establishes the safe drinking water regulations that limit the amount of contaminants allowed in drinking water. The table shows the concentrations of detected substances in comparison to regulatory limits. Substances that were tested for, but not detected, are not included in this table.

Contaminant	Date Tested	Units	MCL	MCLG	Highest Level Detected	Range of Detection	Major Source	Violations
Regulated at the Treatment Plant								
Flouride	2023	ppm	4	4	1.05	0.89-1.26	Erosion of Natural Deposits. Water additive to promote strong teeth	No
Nitrate	9/26/23	ppm	10	10	0.64	N/A	Erosion of Natural Deposits	No
Barium	7/1/21	ppm	2	2	0.05	N/A	Erosion of Natural Deposits	No
Bromoform	7/1/21	ppb	N/A	N/A	<0.50	N/A	By-product of drinking water chlorination	No
Dibromochloromethane	7/1/21	ppb	N/A	N/A	0.55	N/A	By-product of drinking water chlorination	No
Regulated at the Customer's Tap								
Lead	2021	ppb	AL=15	0	1.40	<2.0-2.7	Corrosion of household plumbing system	No
<i>0 out of 30 samples were found to have lead levels in excess of the lead action level of 15 ppb.</i>								
Copper	2021	ppm	AL=1.3	1.3	0.058	0.018-0.091	Corrosion of household plumbing system	No
<i>0 out of 30 samples were found to have copper levels in excess of the copper action level of 1.3 ppm.</i>								
Regulated in the Distribution System								
TTHMS (Total Trihalomethanes)	8/23/23	ppb	80	N/A	17.9	4.5-17.9	By-product of drinking water chlorination	No
HAA5 (Haloacetic Acids)	8/23/23	ppb	50	N/A	10.5	<1.0-10.5	By-product of drinking water chlorination	No
Chlorine	2023	ppm	MRDL=4	MRDLG=4	1.0	0.6-1.7	Water additive used to control microbes	No
Unregulated Contaminants								
Bromodichloromethane	8/23/23	ppb	N/A	N/A	5.9	1.1-5.9	By-product of drinking water chlorination	No
Bromoform	8/23/23	ppb	N/A	N/A	2.2	0.96-2.2	By-product of drinking water chlorination	No
Chloroform	8/23/23	ppb	N/A	N/A	5.6	1.1-5.6	By-product of drinking water chlorination	No
Dibromochloromethane	8/23/23	ppb	N/A	N/A	4.2	1.3-4.2	By-product of drinking water chlorination	No
Bromochloroacetic Acid	7/23/19	ppb	N/A	N/A	1.99	<1.0-1.99	By-product of drinking water chlorination	No
Dibromoacetic Acid	8/23/23	ppb	N/A	N/A	<1.0	<1.0	By-product of drinking water chlorination	No
Dichloroacetic Acid	8/23/23	ppd	N/A	N/A	4.0	<1.0-4.0	By-product of drinking water chlorination	No

Key to table:

AL = Action Level, MCL = Maximum Contamination Level

MCLG = Maximum Contamination Level Goal

ppm = parts per million or milligrams per Liter (mg/L) are units of measure for concentrations of a contaminant. A part per million corresponds to one second in a little over 11.5 days.

N/A = Not Applicable

ppb = parts per billion or micrograms per Liter (ug/L) are units of measure for concentrations of a contaminant. A part per billion corresponds to one second in 31.7 years.

MRDL = Maximum Residual Disinfectant Level

MRDLG = Maximum Residual Disinfectant Level Goal

The "<": A symbol which means less than. A result of <5 means that the lowest level that could be detected was 5 and the contaminant in that sample was not detected.

Listed above are the contaminants detected in West Carrollton drinking water. All detected levels are far below allowed limits. Not listed are the hundreds of other tests in which no contaminants were detected. The Ohio EPA requires us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of our data, though accurate, are more than one year old.
